

Terms & Conditions

Preqin reserves the right to make changes to, or withdraw, Preqin Verify at any time.

1. Overview

We aim to provide the most comprehensive data on private markets, which includes proprietary and publicly available information. To qualify for a reward, the discrepancy must be found on Preqin Pro and be; 1) publicly available data that is incorrect; 2) publicly available data that is missing after 48 hours of release; 3) verifiable, erroneous, non-public data where the source of information is disclosed to us or 4) textual errors or typos that result in incorrect content. To submit an error, notify us at clientservices@preqin.com or through Live Chat on Preqin Pro. If verified by our team, we will send you a \$50 Amazon gift card or make an equivalent donation to select charities that can be found [here](#).

2. Details of Coverage

Preqin Verify includes all publicly available information for entities or industry data on Preqin Pro. Publicly available information is defined as being available from a source in the public domain, including but not limited to information of public record such as regulatory filings, company web sites, or news stories in any newspaper or publication.

We will reward clients for identifying publicly available information that we have not obtained ourselves within 48 hours of its release.

Preqin Verify also rewards clients for corrections of privately held data provided that the source of correct information is provided to us. The corrected information will be added to Preqin Pro or the erroneous data removed dependent on the source provided to us.

We will also reward clients for textual errors or typos only when those errors result in incorrect content. These will be evaluated on a case-by-case basis.

3. Additional Information and Exclusions

Rewards will not be offered for data errors that were the result of incorrect information provided directly to us by your own firm or a member of your organisation. Information from your own firm that is missing or not updated 48 hours after its release is not eligible for a reward. This information can be submitted through our research team as part of our regular data collection procedure. Contact clientservices@preqin.com if you wish to schedule an update to your firm-owned information.

Some data issues may be the result of product error or bug, which may require a larger review - this may be eligible for reward if it is identified, although during the review or fix process, no additional rewards will be granted.

Content mistakes or discrepancies caused by technical issues such as platform defects, bugs, outages or delays in data feed delivery are excluded from Preqin Verify.

Verified mistakes or discrepancies previously identified by our users that are in the process of being corrected by our teams may not be reward-eligible; these will be evaluated on a case-by-case basis. Corrections that cannot be made

PREQIN VERIFY

immediately but that materially inconvenience our users may, at management's discretion, qualify for a reward.

Preqin Pro platform subscribers are eligible for a maximum reward payout of \$1,500 per calendar year.

Appeals or questions about a denied reward should be handled by the researcher working on the request who should escalate the issue to their manager as necessary. The decision of such manager shall be final and no further correspondence will be entered into.

For any questions about Preqin Verify, or to submit an issue, please contact our Client Services team [here](#).
